

PRIVATE LABEL SPRING WATER BOTTLING

Build your own brand for less than 35¢ a bottle!

Natural Foods & Specialty Grocery Stores

Bottled water is a *must* for any Natural Food or Specialty Grocery Store. We offer the highest quality, lowest priced private label spring water to advertise your business. Imagine the sales potential of retailing your brand of spring water with one of the lowest total dissolved solids TDS has ever recorded for a natural spring water, retailing by the bottle with average profits of \$1,400 per pallet!

Your label will bear the prestigious gold seal from the North Carolina Spring Water Association, which tells customers that the great tasting water they're enjoying is from a State Certified spring. Creekside Mountain Springs™ water is naturally free of chemicals, chlorine, fluoride, unfriendly bacteria, and minerals, such as lead and other sediments found in many household plumbing and municipal water systems. Each drop of our private labeled water is filtered at multiple stages and ozonated. Because our spring water naturally has a higher pH than most other bottled waters, it is healthy and life-giving. Its pH indicates that the water is closer to an alkaline state, which facilitates cell enzyme activity and neutralizes and removes stored acid wastes. Microbiological testing and independent laboratory analysis have shown our water is purer than most others.

PROFITS of **\$1,400** PER PALLET!
